

## Dedicated Time for Program Leadership Review Committee for Medical Genetics and Genomics

The charts below reflect the required minimum dedicated time for program leadership based on the number of approved resident/fellow/post-doctoral fellow positions, as outlined in program requirements 2.4.a. and 2.4.b.

For subspecialities not included below, refer directly to the Program Requirements document.

## **Medical Genetics and Genomics**

| Number of Approved Resident Positions | Minimum Percent Time |
|---------------------------------------|----------------------|
| 1-6                                   | 20                   |
| 7                                     | 34                   |
| 8                                     | 36                   |
| 9                                     | 38                   |
| 10                                    | 40                   |
| 11                                    | 42                   |
| 12                                    | 44                   |

## **Laboratory Genetics and Genomics**

| Number of Approved Post-Doctoral Fellow Positions | Minimum Percent Time |
|---|----------------------|
| 1-6   | 20                   |
| 7   | 34                   |
| 8   | 36                   |
| 9   | 38                   |
| 10  | 40                   |
| 11  | 42                   |
| 12  | 44                   |

**Molecular Genetic Pathology** 

| Number of Approved Fellow Positions | Minimum Percent Time |
|-------------------------------------|----------------------|
| 1-4                                 | 10                   |
| 5-6                                 | 20                   |
| 7                                   | 23.5                 |
| 8                                   | 24                   |
| 9                                   | 24.5                 |
| 10                                  | 25                   |
| 11                                  | 25.5                 |
| 12                                  | 26                   |
